Work History

2023-01 - Current

Software Developer

PHA-Web, WFH, WI

- Utilize the .NET framework, specifically with C#, VB.Net and ASP.NET, to design, develop, and optimize web-based applications tailored for public housing management and operations
- Ensure seamless integration of new software with existing databases and platforms, focusing on scalability, reliability, and performance
- Prioritize data security and privacy in the software development process, making certain that all applications adhere to industry standards and protect user data
- Stay updated with the latest developments in .NET and other relevant technologies, ensuring the public housing software solutions are state-of-the-art and effectively meet user requirements

2022-04 - 2023-02

Inventory Specialist

Advocate Aurora Health, Oshkosh | GreenBay, WI

- Recorded information, shortages, and discrepancies to keep records current and accurate.
- Kept documentation and records accurate and up-to-date with latest data to prevent errors in processing or delivery.
- Completed stock inventories to identify and address issues negatively impacting controls.
- Developed and implemented strategies to keep stocks organized and reduce excess inventory.
- Implemented systems for tracking and managing stock levels with accuracy and precision.
- Monitor and manage the lifecycle of IT assets from acquisition to disposal. This includes tracking warranties, scheduling maintenance or upgrades, and ensuring responsible disposal or recycling of outdated equipment.
- Work closely with other IT departments to understand their inventory needs, ensuring that required hardware and software are available for projects and system upgrades.

2021-03 - 2021-09

Customer Service Representative

Alta Resources, Neenah, WI

- Offered advice and assistance to customers, paying attention to special needs or wants.
- Responded to customer requests for products, services, and company information.
- Answered constant flow of customer calls with minimal wait times.
- Updated account information to maintain customer records.

● **Certificate: Teaching English As A Second Language (ESL)**

Fox Valley Technical College - Appleton, WI

2016-01 - 2016-12

● **Technical Diploma: Computer Support**

Alliance Informatique - Haiti

Accomplishments

- Designed and created a user-friendly web-based Finance Tracker application utilizing ASP.NET. The app enables seamless tracking of income and expenses, offering personalized budgeting features and interactive data visualization.
- I have consistently maintained an impressive GPA of 3.7 throughout my academic journey, demonstrating my commitment to achieving a high standard of academic performance. This GPA reflects my consistent efforts, time management skills, and enthusiasm for learning across a diverse range of subjects.
- Proud to be a part of two distinguished academic honor societies: Phi Theta Kappa (PTK) and the National Society of Leadership and Success (NSLS). These memberships reflect my dedication to academic excellence and leadership development, which have been nurtured through my active participation in these societies.
